RELEVANT EXPERIENCE

2022 – Present **SOFTWARE DEVELOPER –** Cubicfox Kft
- **NFT Card Game:** Developed the frontend using React, Next.js, and Tailwind CSS, delivering a dynamic and engaging user interface.
- **Real Estate Website:** Built a responsive website with Next.js and Tailwind CSS; also served as a code reviewer to maintain high-quality standards.
- **Vehicle Evaluation Platform:** Full Stack Developer in an international team, using NestJS, TypeORM, and PostgreSQL for the backend, and Vue.js with Nuxt.js for the frontend.
- **City Exploration App:** Developed a mobile app with React Native and React Query, integrating Google Maps for navigation.

2021 – 2022 **OPEN SOURCE REACT DEVELOPER -** Greenstand
- Contributed to the Treetracker Web Wallet and Web Map Client, using React, Material UI, while serving as a member of the Code Reviewer Team.

PERSONAL PROJECTS

MEAL PLANNER
- Developing a full-stack meal planner app to further enhance my skills in modern development and keep up with the latest technologies.
- **Backend**: NestJS, TypeORM, MySQL.
- **Frontend**: Next.js, Tailwind CSS, Material UI.

GUITAR PRACTICE ASSISTANT
- This app is built with TypeScript with MERN stack, using RESTful API design.
- Redux for state management, Node & Express for backend, and MongoDB as database.

GUITAR STORE
- Designed and developed a complete React and Sass frontend for a Guitar E-Commerce website. Using a mock Rest API for storing product data.

EDUCATION

2010 – 2011 **PÉCSI SZC ZIPERNOWSKY KÁROLY SZAKGIMNÁZIUM**
Web Developer Major

2004 – 2008 **SZIGETVÁRI ZRÍNYI MIKLÓS GIMNÁZIUM**

IT Major
